April 2010

*Stephen M Robertson
Chief Executive Officer*

EXECUTIVE REPORT:

Good news, The MWOA is to become a **"Training Service Provider"**. We are well on the way in establishing ourselves as the local government training provider for all training. We will become your **"One Stop Call for all Training"**. There has been a meeting with our regional Presidents and Secretaries to select the 17 Electives required for Certificate 111 in Local Government Operational Works. They have also listed many short courses for us to deliver. Have you any suggestions as to what training shortfalls we could address, and if so please give me a call or send me an email and we will follow through. We will be taking bookings in May to be totally operational by 1st July.

The 17th NW&EC is coming together but I would like some more Works Officers to put their hand up to do something at the conference. We have room for formal presentations, and also room for Demo's or presentation from the trade area if you have an innovation you would like to share with the industry.

"17th NW&EC"

23-24th September 2010
Bendigo Exhibition Centre
Holmes Rd Bendigo
(Call for papers)
